

Help! (Lyrics by Kathleen Peterson, Powerhouse Consulting; music owned by Kathleen Peterson)

(To the tune by the Beatles)

Help! I need somebodies
Help! Not just anybodies
Help, you know I need someone's help!
When we were smaller so much smaller than today
We didn't ever need so many bodies in a day
But know those days are gone, it all seems so absurd
And now I find there is no time, we just can't do no more
Help me if you can our stats are down
And I don't appreciate you standing round
Help me get these stats up off the ground.
Won't you please, please help me!

But now our center's changed in oh so many ways
Our agents do their stuff and now it really pays
We gave them training and the schedules that have won
Our stats are up now and the payoff has begun.
Help me spread the word I'll show you how
How to get results that's sure to make you proud
Help me get the message to you know.
Won't you please, please help me!
